## OVERDRAFT SERVICES CONSENT

ATM and One-Time Debit Card Transactions

## WHAT YOU NEED TO KNOW ABOUT OVERDRAFTS AND OVERDRAFT FEES

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.

2. We also offer overdraft protection plans, such as a link to a share/savings account or overdraft line-of-credit, which may be less expensive than our standard overdraft practices. To learn more, ask us about these plans.

This notice explains our standard overdraft practices.

## What are the standard overdraft practices that come with my account?

We <u>do</u> authorize and pay overdrafts for the following types of transactions:

- Share drafts/checks, and other transactions made using your checking account
- Automatic bill payments
- ACH transactions

We <u>do not</u> authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- · One-time debit card transactions

We pay overdrafts at our discretion, which means we  $\underline{\text{do not guarantee}}$  that we will always authorize and pay any type of transaction.

If we do not authorize and pay an overdraft, your transaction will be declined.
